

New for Fall 2007

CELEBRATING BIRCH

THE LORE, ART, AND CRAFT OF AN ANCIENT TREE

For the Love of Birch

Known as the *Mother Tree* by some, the birch has been significant to the well-being of civilizations in the Northern Hemisphere since the last ice-age. The unlimited uses and applications of this distinctive and graceful tree have served many cultures; thus, the birch is celebrated in countless traditions, histories, and myths.

In *Celebrating Birch*, North House Folk School, a community created to encourage lifelong learning through the teaching of traditional crafts, introduces a broad history of the birch—from its biology and ecology to its place in the practical and spiritual aspects of many northern cultures. In addition, included are 20 beautiful and practical projects to create, including a woven bark basket, carved box, and turned wooden bowl. More than just a tree, the birch is a link to our common human past that enriches the lives, hearts, and minds of those who work with it.
